We export to 45+ countries, including EU

The list of countries includes

Germany, Spain, Italy, Poland, Portugal, Turkey, Switzerland, South Korea, Japan, etc.

Why choose us?

Diversified product portfolio (garments, hosiery and home textile)

Proprietary testing laboratory to control quality on each step

Proprietary design and decoration capabilities

Sustainable production with focus on high labor standards and environmental protection

Our production

Our technological cycle includes all stages of production – from cleaning and preparing cotton fiber, producing yarn and linen to sewing, marking and finishing knitted garments

We acquire global talents to improve quality and production processes: over 20 highly qualified engineers from Pakistan, Belgium and Turkey

We have access to raw materials, advanced production technologies and latest equipment

Spinning equipment, Switzerland

Twisting equipment, Italy

Lab complex, Switzerland

SCHÖNENBERGER

Transportation system, Germany

Blower, Germany

Winding equipment, Japan

Air conditioning system, Switzerland

Yarn damping, Switzerland

Compressor station, Belgium

Packaging automation, Italy

Cotton ginning and spinning

We offer carded and combed cotton yarn of the ring spinning method, single-twisted and multi-twisted: from Ne 16/1 (Nm 28/1) to Ne 40/1 (No. 68/1)

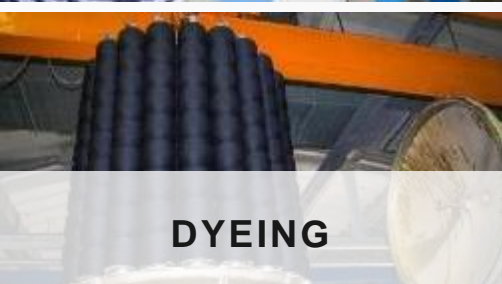

Yarn dyeing is carried out in THIES dyeing machines (Germany). The recipe of colors is a laboratory product of DATACOLOR AvtoLab (USA). The technology of individual control on the COLOR SERVICE equipment provides the highest dyeing of the yarn and preserves brightness of the colors

We also produce blended yarn, importing neylon, spandex or poliamid from China

DYEING

DESIGN & MODELLING

CUTTING

DECORATION

SEWING & PACKAGING

Dyeing, designing and sewing

We have proprietary design office and necessary facilities to produce all types of ready-mades, such as garments, home textile and hosiery.

We have more than 3 500 employees for this production stage

Our ready-made products

UZTEX HOME

Terry products are produced with 100% cotton

Types of products

- Towels (plain-dyed, multi-colored, jacquard-patterned, waffle)
- Robes and sets for hotels (bathrobes, slippers, terry blankets, terry sheets)
- Sets for children (towels, bathrobes, pajamas, ponchos, envelopes for newborns)

We also produce knitted sheets with elastic band

UZTEX FASHION

We produce all kinds of ready-made knitwear

Printing technology uses high quality and safe water-based inks and plastisol from Italian company Minerva

We also use technology of silk-screen and multi-color flock application, transfer and thermal printing, glitter and foil

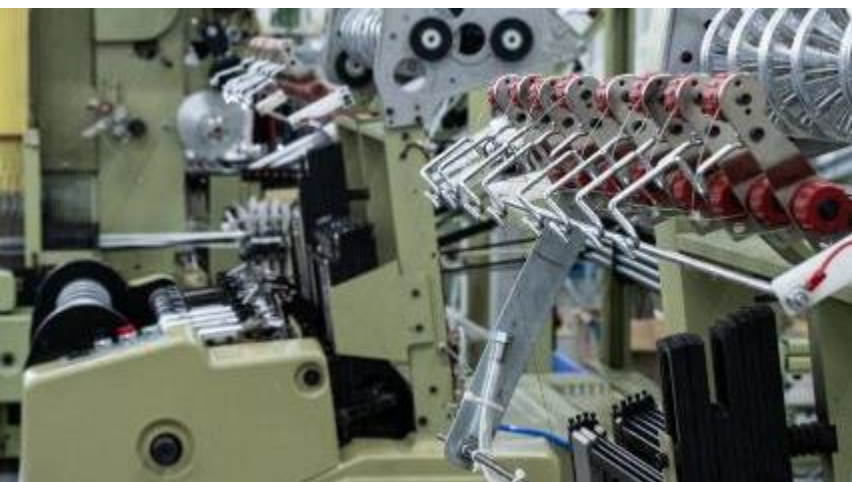

UZTEX SOCKS

We use latest equipment, such as Lonati, Menegatto, Tecnopea, Dinema, SSM, Atlas Copco, Heliot, Yamato, Juki, Suflet, R&B Impiati, Dogu

The equipment we use allows us to produce socks, tights and stockings with automatic toe sewing

Accessories

We have proprietary production of accessories and also import them from Turkey

Our laboratory and certificates

We have our own laboratory and testing equipment from leading European manufacturers

German HOHENSTEIN Institute gave a class 1 rating for all manufacture products of UZTEX Group after audit

We also comply with international standards of environmentally friendly and safe production

CERTIFICATE 

for the management system according to ISO 9001:2015

 BSCI Business Social Compliance Initiative

USTERIZED®
